COMPANY OVERVIEW

Vvya Trading 55 CC, commonly referred to as Sizwe Construction and Supplies, was created and founded by Ms. Padayachee in 2007. As she began her journey as an entrepreneur, Ms. Padayachee, an accountant by profession, leveraged her experience to fulfill her dream, and has never looked back since. Sizwe Construction and Supplies initially focused on supplying to the private sector and government parastatals.

Headquartered in Johannesburg, with branches in Durban and Richards Bay, we have actively grown our business and our relationships with our suppliers. We are now a proudly South African, woman-owned company with a Level 1 BEE contribution status. In addition to our construction and supply services, we now also provide industrial cleaning chemicals, complete with Material Safety Data Sheets (MSDS) and Technical Data Sheets (TDS).

OUR COMMITMENT

At Sizwe Construction and Supplies, we are dedicated to delivering quality products and services, fostering community empowerment, and maintaining our commitment to excellence in every project we undertake.

OUR SERVICES AND EXPERTISE

We offer a wide range of innovative industrial cleaning chemicals, complete with Material Safety Data Sheets (MSDS) and Technical Data Sheets (TDS). Our products deliver a competitive advantage to clients across various sectors, including industrial, commercial, municipal, healthcare, governmental, and non-profit organizations. We provide samples and demonstrations upon request and offer training if required. Our extensive product range includes water-based and solvent-based degreasers, car wash products, and general-purpose industrial chemicals.

In addition to our chemical supply services, Sizwe Construction

and Supplies is a well-established contracting company known for providing turnkey building solutions to both public and private sector clients nationwide. Our exceptional service is founded on values such as honesty, reliability, and quality.

We have built a strong reputation as a trusted contractor for a variety of projects, including building, construction, maintenance, plumbing, and shop fitting. Whether working on new commercial, industrial, or residential structures, or restoring heritage buildings, we excel in delivering outstanding results on the building site, regardless of the project's nature or requirements.

OUR CONSTRUCTION SERVICES

Turnkey Solutions
